

# ANTI SLIP GLASSES EAR DONUTS

## INSTRUCTION MANUAL

Ever find yourself pushing your glasses back up your nose all day?

These glasses donuts are a tiny fix that makes a big difference.

They slide onto the arms of your glasses and sit gently behind your ears, adding just enough grip to stop frames from slipping, sliding, or slowly creeping down your face. Soft, lightweight, and barely noticeable, they help your glasses stay exactly where you want them without pressure or pinching.

Once they are on, you forget about them. Which is kind of the whole point.

### Great for:

- Glasses that slip down your nose
- Moving, walking, or being active
- Looking down at phones, books, or screens
- ADHD and fidgety adjusting habits
- Reducing irritation from constantly touching your glasses
- Limited hand strength or dexterity
- Kids who knock their glasses out of place
- Adults who wear glasses all day
- Work, school, and study
- Travel and commuting
- Making glasses more comfortable and secure

### Features:

- Sits gently behind the ears to keep frames in place
- Soft silicone for all day comfort
- Adds grip without adding bulk
- Lightweight and barely noticeable
- Easy to slide on and off
- Available in different colours
- Easy to wipe clean

# ANTI SLIP GLASSES EAR DONUTS

## INSTRUCTION MANUAL

**Image Description:** A small, circular silicone ring designed to slide onto the arm of a pair of glasses. The donut shape adds gentle grip behind the ear to help stop glasses from slipping. The design is minimal, discreet, and available in a range of colours.

### **Details:**

Material: Silicone

Size: 0.7cm diameter (should fit all glasses styles)

Weight: Less than 1 gram

Package Contains: 1x pair of Glasses Accessory

Age Guidance: Recommended 3+ once installed. Small parts. Not a toy.

### **How to Use:**

1. Slide one donut onto each arm of your glasses
2. Position them just behind your ears
3. Adjust until your glasses feel secure
4. Wear and enjoy not having to push them back up

### **Care Instructions:**

- Wipe clean with a damp cloth
- Allow to air dry
- Do not use hot water
